Week 1 changing lines 2 + 5

29 Responding to Challenges ➡ **23** Tumbling Down

Responding to Challenges focuses on resourcefulness, flexibility, and innovation. When out of balance, you may be reacting without thinking or clinging to old traditions.

Tumbling Down tells us that a wise, empowered person knows when a situation is beyond their capabilities, so you may need to bring more experienced individuals in to help with the task. This week, make sure that you listen and stay open minded. Another fresh perspective may be exactly what you need to get to the finish line. Many minds are better than one.

Week 2 changing line 1

18 Correcting Mistakes ➡ **46** Pushing Upward

Correcting Mistakes focuses on correction, rectification, revision, or a change of heart. We can't correct something that we are unwilling to acknowledge, so we must make that first step in order to set things right.

Pushing Upward encourages you to put in the effort to correct your mistakes. Now is the time for struggle, work, and diligence, but also steady growth and progress.

Diligently work towards your objective of correcting bad habits; taking it step-by-step and day-by-day. This week, set small attainable goals that bring you gradually closer to the changes that you seek. If you take on too much at once, you may become overwhelmed to the point where you give up altogether.

Week 3 changing lines 2 + 3

49 Transforming Yourself ➡ **22** Seeing Beyond the Surface

Transforming Yourself encourages change, metamorphosis or transformation, transition, or a shift in thinking.

This is a time of learning and progress. Don't let fear hold you back from new possibilities.

Seeing Beyond the Surface puts a strong emphasis on upholding moral values. It is representative of the beauty that lies under the material surface. Physical appearances are superficial and do not represent a person's true moral character or personality.

This week the Universe encourages you to define yourself and judge others based on personality, morals, and intellect opposed to superficial qualities like looks, wealth, and other material attributes.

Week 4 no changing lines

59 Achieving Unity ➡ **59** Achieving Unity

Achieving Unity centers around focus, balance, and integration. When out of balance, you may be scattered or unfocused. You could also be isolating yourself spiritually from those around you.

When this hexagram appears, it is time to focus on your spiritual practices. Find unity within by meditating and focusing on self-improvement. Find unity with others by finding those that share your values and practicing together.

If you attend church, reach out to your congregation and get feedback on the trials that you are facing. They may be able to lend you answers to the questions you seek.

Week 5 changing lines 3 + 5

60 Setting Limits ➡ **17** Adapting to the Times

Setting Limits represents healthy boundaries, self-discipline, regulation, and exclusion. When out of balance, you may be going overboard in one area of your life, while neglecting other areas. You may be losing control because of this imbalance.

Adapting to the Times recommends that you give yourself a little "wiggle room" with your morals and values. Allow yourself to adapt to the ever-changing world around you.

The Mansions of the Moon Calendar for 2023

In moon Astrology, the effects of the moon's travels in the zodiac are captured in the 28 Mansions of the Moon. While the moon is above the horizon for you, its effects dwarf the astrological effects of the other planets. It's like the difference between a giant searchlight in your yard and a person across the earth with a flashlight. The other planets are just so far away while the moon is so close.

We also find that the moon's influence waxes and wanes with its brightness. During the time around the full moon, its effects are very pronounced. However, during the time just after the new moon, its effects are minimized. During the new moon, we are dependent on the Almanac, especially during the evenings and nights. Neither the sun nor the moon is in the sky and the influence of the Earth is at maximum. The Almanac offers the best guidance during these times.

In the calendar, you will find the numbers of the Mansions for each day this year. You can use the quick reference guide above to match the number to the Mansion's name. Pay particular attention to the Mansion's energy when the moon is bright in the sky. Focus more on the Almanac during the time of the new moon.
