## Mansions of the Moon 2023 Calendar

If you own a Daily Crystal Horoscope you will be needing a calendar of the Mansions of the Moon for 2023. It is the last page of this document for you to print out and use all year.

### Background

The Mansions of the Moon are the 28 divisions of the Zodiac. When the Zodiac is divided into 12 parts we know them as the Sun signs like Aquarius and Aries. When the Zodiac is divided into 28 parts they are called the Mansions of the Moon. In its roughly monthly orbit of the Earth, the Moon spends about one day in each of the Mansions. The Moon's influence on our feelings and spirits depend on which Mansion it is transiting. When the Moon is above the horizon, you will find that its influence based on its current Mansion is far greater on you than any other planet or arrangement of planets in your astrological chart.

The Crystal Daily Horoscope is a simple tool to use to keep track of the Moon and its influences. It comes with complete instructions and is very easy to use.

How would you like to cast your own daily horoscope, do it in under a minute, and know exactly what energy the day will

bring? And how about if you don't need the Internet, a complex chart with lines and arrows and archaic symbols, a pen, a notebook, or even a piece of paper?

It turns out you can. If you can move a crystal or two on the Crystal Daily Horoscope chart you can almost instantly cast your horoscope for the day.

The Horoscope is an 11 x 17-inch full-color laminated chart, five crystals and complete instructions and reference charts. The reference charts are used to interpret the results of the daily movement of the crystals that track the moon and produce a daily horoscope. It takes about a minute and is absolutely accurate. The instructions are easy to follow, the chart is eye-catching, and the results are amazing.

# Daily Crystal Horoscope

**The Daily Crystal Horoscope tracks the Moon's travels using crystals you move each day. It provides a daily personal horoscope by combining the Moon's energy from its location in the heavens and your subconscious that instantly gives the Moon's energy meaning for you and your day ahead. A good horoscope is one that points you in the direction of your hopes and dreams. The Daily Crystal Horoscope does just that every day. Once it is set up initially, it takes less than a minute each morning to align it to the current Moon and determine your path for the day to having the life you want. This is done by reading the new locations of the crystals and referring to the reference tables for interpretation.**

## **Start Here: Initial Set up and Weekly Calibration Instructions**

1. Set up the Daily Crystal Horoscope chart and make sure you have the 2 white stones (howlite), 1 moonstone, 1 black stone (obsidian), and 1 orange stone (carnelian).
2. Log on to the Internet with your phone or computer and at [google.com](http://google.com) search for "local moonrise." You will find a number of sites that will give you the time of moonrise and moonset today. Place one of the white stones at the time of moonrise, and the black stone at the time of moonset. Precision is not required. It is your chart, so you know what you mean.
3. On the Internet again, search for "phase of the moon today." As in Step 2, you will find a host of sites that will tell you which phase the moon is in today. Place one white stone on that phase. Note different sites have different names and divisions of the phases of the Moon. Just put the stone near the image that matches what the Moon looks like. You need not be too precise. The energy varies a bit from phase to phase but not dramatically so.
4. Now refer to the current year's Mansions of the Moon Calendar and find today's date in the left column. Read over to the current month to find the Mansion of the Moon for today. Place the moonstone on that space. There are a few days a month when the Moon enters a mansion a few minutes after midnight, then the next one in the late evening. You will see two entries for these days. Mostly the second one is more appropriate for later evening feelings and late night spiritual events. Also, realize the Moon enters Mansions at different times each day. The entries give you the primary one for a day.

Two notes: The Mansion of the Moon Calendar is for North America. If you are somewhere else the Mansions may start or end a day differently. Consult the interactive calendar at <https://www.lunarium.co.uk/calendar/universal.jsp> where you can enter your location and print a monthly calendar that will show you the mansions each day. You can also use this site if you lose the Mansion of the Moon Calendar. You can also find the calendar on our website's download page – [www.crystalvaults.com/downloads](http://www.crystalvaults.com/downloads).

5. Place the orange Carnelian on the current Sun sign. You can Google "current Zodiac sign" if you are not sure.
6. You now have all the stones placed. Consider this art, not science and you will be fine.

# Daily Use

---

## Quick Checklist (after a few days, this is all you need)

1. Move the Moonrise and Moonset stones about 3/4 inch to the right – to a later time.
  2. Move the Mansions of the Moon stone 1 mansion number higher.
  3. Move the Moon Phase stone about 1/2 inch up if on the left, down if on the right.
  4. Read the results and consult Moon Phases Table and Mansions of the Moon Guidance
  5. Read the appropriate entries from the two tables out loud. This is important.
  6. Let your subconscious interpret the daily results to form your personal horoscope.
  7. Some people take a quick picture of the Horoscope chart in case the dog bumps it later.
- 

## Detailed Instructions For Each Morning (for the first few days)

1. Move the Moonrise white stone about 3/4 of an inch (50 minutes) later. Precision is not required. You are just telling yourself about when the Moon will rise again. The average time is 50 minutes later, but that varies.
2. Move the black Moonset stone about 3/4 inch (50 minutes) later.
3. Move the Mansion of the Moon stone one mansion counterclockwise (the next bigger number.)
4. Move the Moon Phase white stone up about a half an inch if it is on the left side or down about a half of an inch on the right side. Again, precision is not required.
5. If it is about the 21st or so of the month, check to see if the Sun is entering a new sign and adjust the orange Sun stone as necessary. You will only be moving it once a month. You can move it slightly counterclockwise in its zodiac sign each day if you like. But it stays in each sign about a month. The Sun sign energy is found in any newspaper or Web site. It is only useful when the Moon is not in the sky and is not used in the Crystal Daily Horoscope which focuses on the Moon's effects on your life and spirit. Feel free to bring any normal Sun sign insights into your daily horoscope.
6. Read the current moonrise time, moonset time, phase of the Moon and the current Mansion of the Moon from the stones. Note that during the hours between moonrise and moonset the energy of the Cosmos will be primarily affected by the Moon. Your spirit and emotions will be too.
7. Consult the Moon Phase Table for a general reading of the energy you need to contribute to your goals. There is balance to maintain in life. You are gaining and expending energy.
8. Next, consult the Mansions of the Moon Guidance table and read the elemental and zodiac energies and guidance of the day. It is best to read this aloud. Your subconscious will immediately apply this information to the day ahead. No one, probably not even the conscious you, knows how the Moon's energy and feelings will affect your heart and spirit today, but rest assured your subconscious does. You will get an almost instantaneous reading. **The action of moving the stones and reading the energies connects your subconscious and the Moon like magic giving you a daily path.** Now you can start your day knowing when and how the energy of the Cosmos will affect your mood, spirit, and life.
